

Poster Session Program

Thursday: 30.3.2017

First Name	Family Name	Institution	Participation	Poster Title
Katrin	Schmietendorf	Universität Oldenburg, ForWind	Poster	The Impact of Wind Feed-in on Power System Stability and Quality
Michael	Conrath	Jacobs University, Bremen	Poster	Spreading of perturbations in self-similar, tree-like electricity grids
Konstantinos	Karamanlis	Institute of Electrochemical Process Engineering (IEK-3), Jülich Research Center GmbH Chair for Fuel Cells, RWTH Aachen University	Poster	Linear modeling of the electric power transmission network of Europe using network reduction techniques
Paul	Schultz	Potsdam Institute for Climate Impact Research	Poster	Enhancing SciGRID with distribution grids - a network of networks model
Andre	Hoffrichter	RWTH Aachen	Poster	Impact of considering 110 kV grid structures on the congestion management in the German transmission grids
Wilko	Heitkoetter	Next Energy / RWTH Aachen	Poster	Introduction of an Open Source Tool for the Characterization and Comparison of Open Source Power Grid Models
